

Welcome and thank you for selecting our office for your dental needs. Please print out your new patient forms from our website, fill them out and bring them with you at your first appointment.

When you arrive at our office, we will spend time getting to know you and any expectations you might wish to disclose. We will also perform a complete examination including oral cancer screening, jaw joint evaluation, bite check, determination of gum disease, tooth decay, and any other dental conditions which may be present. Once we know everything about your current condition, we will present our findings and work with you to achieve the level of dental health you desire.

We welcome an open and frank discussion of our fees. Our practice works closely with our patients to help them become as healthy as possible with respect to their budget. We gladly accept cash or check and major credit cards. Financing is available for our patients who require extended treatment.

If you have dental insurance, please bring with you identification that will help us determine your eligibility, a card or direct phone number to your insurance company or employer. We will do everything we can to help you understand your policy and receive the maximum benefit allowable under your insurance plan.

We look forward to becoming better acquainted with you. Thanks again for choosing our practice.

Dr. Michael Radcliffe and Staff
